2003	Germany: Munich, Cologne Switzerland: Bern, Dornach France: Paris, Ronchamp, Lyons Belgium: Brussels, Antwerp, Ghent, Bruges

Endurance:

Marathons: Akron ½, 2010 Cleveland, 2010 Bahamas, 2012 Towpath, 2013 Austin, 2014 Akron, 2016

Affiliations:

2015-17 -	Hanson House Traumatic Brain Injury Clubhouse, Berea, Ohio – Volunteer, Event Leader
Various -	Habitat for Humanity, branches in Ohio, California, Colorado, and Texas – Volunteer on site
1990s -	Boy Scouts of America, Cleveland, Ohio (Troop 374) and Athens, Ohio (Troop 71) – Scout Leader

Project List: Design Projects on the ensuing pages were undertaken both individually and collaboratively. (Many designs for previous firms were team projects). The list is in reverse chronological order.

Christopher A. Lobas and Associates, Architects, P.C.

Principal Architect, 2005-Current

We design innovative and sustainable projects in all our states of registration. Our design support staff includes recent graduates and architecture students. Our residential work includes new homes, renovations, and dramatic additions in an array of styles. Commercial projects include cultural and religious institutions, hospitality work, tenant finish projects and interiors, historic preservation and adaptive reuse.

<u>Project</u>	<u>Location</u>	<u>Scope</u>	<u>Style and/or Project Description</u>

Also drafted various small commercial and residential projects.

William A. Koster and Associates, Architects

Co-op Student	1991-92		
<u>Project</u>	<u>Location</u>	<u>Scope</u>	<u>Style and/or Project Description</u>
County Library	Rocky River, Ohio	New Build	Constructed large cardboard core model
Municipal Library	Athens, Ohio	New Build	Constructed models of library shelving

Historic Structure Assessments:

Historic Structure Assessments are reports written on behalf of owners or community custodians of historic buildings, usually those which need repair or upkeep. The format for these reports was originally established by the National Park Service, a branch of the United States Department of the Interiors. Reports include a cultural and construction history, a methodical description of all aspects of the building construction inside and out, from foundation to roof, and descriptions and recommendations for each feature. The final portion of the reports includes a list prioritizing the most important repairs and upkeep necessary to preserve, restore, or rehabilitate the building. Reports generally span 100 to 200 pages in length.

HSA Reports completed:

- William Bonner House, Midway, Utah, 1867
- Watkins Coleman House, Midway, Utah, 1865
- Hough Block Community Theater, Lake City, Colorado, 1880-1882
- Monte Vista United Methodist Church, Monte Vista, Colorado, 1923
- St. Thomas the Apostle Episcopal Church, Alamosa, Colorado, 1930
- Saguache County Courthouse, Saguache, Colorado, 1910
- Moffat Community Church, Moffat, Colorado, 1911

Continuing Education Courses:

12 credits taken each year. Listing available upon request.
